

Food safe heavyweight mitts with maximum heat protection

ABOUT THE PRODUCT

Our KnitActiv™ TBMOB mitts are food safe and help protect hands against heat hazards. Made from heavyweight cotton, they've been internally tested for protection beyond maximum ANSI 5 standards for extreme heat resistance up to 752°F / 400°C and feature a thin vinyl liner around hands to prevent hot liquids and vapor from penetrating the material. Treated to resist water and liquids, these gloves feature reinforced thumb crotch for protection against wear and tear. They're CFIA-compliant for safe hood handling in Canada.

APPLICATIONS

AUTOMOTIVE, FOOD PROCESSING, METAL FABRICATION
